## The Policy of the Administration.

The recent active movement in our navy and army, consequent upon orders from Washington, is developing the policy of the administration in relation to the obstruction of the laws and the rebellion against the authority of the Union in the seceding states.

Much complaint has been made by the republican press on account of the uncertainty in regard to this policy, based upon rumors from the seat of government, sent by correspondents of the New York press. We have been satisfied, for some time, that these statements had no foundation in fact, and that the originators of them knew nothing at all of the action of the cabinet, or of the real intentions of the president. The new administration has brought with it a change in regard to cabinet secrets, quite reversing the custom under Mr. Buchanan, which permitted cabinet ministers to divulge the most important state movements, to be published in the newspapers, to the serious detriment of the country, and the administration. It is evident that a new programme has taken the place of the old one in this respect, and that it is true, as was said by a cabinet officer not long ago, in reply to a query from one of these newspaper correspondents, that "there were no reporters in the cabinet." The New York Herald is not able now to announce in advance what the government means to do with the questions before it; and the New York Times, which expected to occupy a confidential place in regard to Mr. Lincoln's administration, finds itself no more trusted than the Herald, and has, therefore, been advertising for "policy" to be pursued by the government. We believe there has been a policy from the first, but it has not been divulged to the world; and hence, while these letter writers have been telling us that there would be peace, no matter what concessions were demanded, and that Fort Sumter would be evacuated at certain specified times, that there never has been any intention to do so. We believe the administration means peace, if that can be had consistent with the dignity of the government and the sword duty of the president and his advisers; that while there has been apparent delay, there has been an active and successful effort to bring the army, the navy, and the treasury into such a condition, that, if Mr. Lincoln was forced to do so, an effectual blow could be struck at the secessionists. These preliminary arrangements having been made, the time has now come for action, and we are glad to see that the policy so much demanded, is the enforcement of the laws, and the holding possession of all the forts and other property of government, though in doing this it shall be necessary to use the army and navy, and possibly to call upon volunteers from the loyal states. There is not the slightest doubt that such a course will be hailed with enthusiasm by the friends of the Union throughout the country.

**LEGISLATIVE.**—A bill providing that the salary of the attorney general shall be fixed at \$2000 has passed both branches of the legislature. Mr. Booth petitions the legislature for \$20,000 damages because the state failed to protect him in his rights. The assembly refused to act upon the subject, and it is said that Mr. B. intends to sue the state. Mr. Graham has introduced a joint resolution requesting congress to call a national convention to amend the constitution.

The bill to provide for the publication of legal decisions has been passed under a suspension of the rules. It provides for a new appointment of reporter by the supreme court, who shall publish these decisions. The state takes 300 copies at \$3 a copy, of each volume, and the publisher is restricted to \$3 in price of those sold. Two volumes a year are to be published, 850 pages to the volume.

For nearly thirty years it has been a question in this country as to what constitutes an abolitionist. It will be a satisfaction to many to have the question settled, and we accordingly take pleasure in copying the following authentic definition of the term from the Southern Literary Messenger, a respectable Richmond magazine:

An abolitionist is any man who does not love slavery for its own sake, as a divine institution; who does not worship it as the corner-stone of civil liberty; who does not adore it as the only possible social condition on which a permanent republican government can be erected; and who does not, in his most soul, desire to see it extended and perpetuated over the whole earth, as a means of human reformation, second in dignity, importance and sacredness alone to the Christian religion. He who does not love African slavery with this love is an abolitionist.

Works on the United States are now eagerly sought for in Europe and find a ready sale.

There has been several pleasant showers since Saturday.

## LOCAL DEPARTMENT.

ANOTHER OLD CITIZEN GONE.—Judge William Holmes died in this city yesterday, at the ripe old age of 80 years. Judge Holmes came into Janesville in March, 1836, and although then 55 years of age, he has since lived an active life as a farmer. Every body knew and every body respected him; in the memory of the older residents of the city, he is indissolubly connected with its history and progress, and many will follow him to the grave with the cherished recollections of an old and true friend. Judge H. leaves a venerable and venerated wife, aged 79 years, with whom he had encountered the adversities of an eventful life and enjoyed the blessings of a happy household for 55 years. His funeral will be attended at the residence of Volney Atwood, to-morrow morning at 10 o'clock. The friends of the family and of the deceased are requested to attend without further invitation.

HYATT HOUSE.—We are gratified to learn that one-half of the Hyatt House has been leased by Solomon Hutson, and that it will be opened by him about the first of May next. Some changes in the building will be required, and the work upon them has already commenced. Mr. Hutson is a man who carries through any enterprise he attempts, and when he takes possession of the Hyatt it will be under the charge of an experienced landlord, with every prospect of a successful result.

IMPORTED SEEDS.—Among the spring arrivals from Europe we notice that Mr. Barrows has received by the steamer Yorktown, eight casks of seeds from England, which comprise some of the choicest varieties grown there, and which promise to be valuable to the farmers of the northwest.

ARREST FOR POCKET PICKING.—Truman Stickney was arraigned before the police court this morning on the charge of picking the pocket of Alfred Slack in a saloon in this city Saturday evening. The examination was adjourned to-morrow morning.

SUPERIOR GOLD PENS.—The manufacture of gold pens has become of so much importance that the processes by which they are produced have become vastly improved within a few years. The demand has kept pace with the efforts of manufacturers until it would seem that perfection in that art is nearly attained in the pens now offered to the public by Mr. LEROY W. FAIRCHILD, 132 and 134 William street, New York. These pens have the unanimous approval of all who use them, whether bankers, merchants and business men, who require elegance and durability; or editors and lawyers, who want a writing instrument which cannot get out of order, but which is always in a condition for writing, whether kept and used with care or not. Since we have obtained one of Mr. Fairchild's pens our manuscript looks so much better and neater, (if the latter term can be applied to our scrawls,) that the compositors in the office have become astonished at the improvement in our chirography.

Mr. O. J. Dearborn, bookseller of this city, is agent for the Fairchild pen, and keeps a large stock on hand, so that every peculiarity of taste in selection can be consulted; and we would recommend all who desire a *perfect pen* for any kind of writing whatever, to look through Mr. D.'s large assortment, believing that the most fastidious writer will be able to make a satisfactory selection.

EXCHANGE.—Despatches, we are informed, have been received by our city banks that exchange went up to 5 per cent to-day in Chicago and Milwaukee.

OPENING POSTPONED.—A letter received to-day from Mr. Ryan, says that he will be unable to be here before Thursday evening with his company, and that the opening of his theatre will be postponed until that evening.

PERSONAL.—A public dinner is to be given to Gen. Rufus King, by the leading citizens of Milwaukee, to-morrow evening.

W. P. Dole, of Illinois, has been appointed commissioner of Indian affairs.

We hear that Dr. M. M. Davis, of Columbia county, has been appointed Indian agent for the north-eastern part of this state. A good selection.

Choice and Valuable Varieties of Potatoes.

WHITE JACKSON POTATO.—Any person of late visiting Vermont must have heard of this famous variety of potato. It has no superior, if any equal, for baking or boiling. Keeps well for a second season.

PRINCE ALBERT POTATO.—Imported from Adrian, Michigan. This variety is unequalled for yield. Fine, large and long. Never known to rot. Good and pleasant for use through one year from digging. To the above three particulars this potato is allowed by all who know anything about it, to stand prominent as the best of the potatoe kind. I have a few bushels only of this variety.

Both the above are late potatoes. Every garden and field ought to have a corner reserved to try these.

THE PEACH BLOW POTATOES sold by me last year, and known to most farmers, can be found at stores. Also for early potatoes, Early York, Studley's Early Seedling, Early White Cracker, Early June, Ash Top Kidney and most other varieties in market, at the Hardware and Seed Store.

E. S. BARROWS.

REMOVAL.—Harris has removed his barbershop into the basement of Exchange block, the room formerly used for our jobbing and press work. He has, in connection with his shaving and hair cutting, prepared the conveniences for bathing, and invites his old and new customers to call on him.

TAXES IN TEXAS.—Texas is hard up for means. The report upon her finances show that to meet the demands upon the treasury up to June next, after all other reliable means have been exhausted, there will be needed \$817,000. The yearly taxes amount to \$343,000, so that the taxes must be increased three-fold to meet the ordinary expenses under the old state of affairs. The expenses of the recent session of the legislature and the convention will make up \$175,000 more to be provided for. To this must also be added a large sum for troops to protect the people against the Indians.

Texas will probably remain independent until she has run hopelessly into debt, is starved out and half of her people are killed by the Indians, when she will apply for re-annexation to the old Union, and demand that the federal government pay the expenses of her rebellion.

## JOB PRINTING!

They not only open the bowels, removing Consti-

tions. For Literary Men, Students, delicate Females, and all persons of sedentary habits, they are valuable as a Tonic, improving the appetite, giving tone and vigor to the digestive organs, restoring the natural elasticity and strength of the whole system.

The CEPHALIC PILLS are the result of long investigation and continued experiments, having been in use many years, during which time they have proved safe and relieved a vast amount of pain and suffering from headache, whether originating in the nervous system or from a deranged state of the stomach.

They are entirely vegetable in their composition, and may be taken at all times, with perfect safety without making any change of diet, and the absence of any disagreeable taste renders it easy to administer them to children.
